

P2P Global Investments PLC

AN ALTERNATIVE CREDIT INVESTMENT TRUST

Investment Manager's Commentary

During November 2018, P2P Global Investments PLC (the "Company") built on the continued strong performance of the last few months with the NAV increasing by 0.57% or 6.84% on an annualised basis. In the second half of 2018 this brings the average monthly NAV return to 0.51%, exceeding the initial 0.5% target set by the Manager.

At the end of November, the continuing portfolio had increased to 80%⁽¹⁾ (up from 77% in October 2018) with the run off portfolio reduced to 20%⁽¹⁾. In December the Company disposed of a \$41m run off US consumer lending portfolio and is redeploying the capital into more specialist assets in the US. Returns on the run off portfolio continue to exhibit volatility but as the portfolio reduces in size the overall impact on the Company's performance continues to reduce.

Share buybacks during the month totalled 401,500 which contributed 0.09% on the monthly NAV return and 1.14% on an annualised basis.

Company Overview

P2P Global Investments PLC is a UK listed investment trust. The Company is focused on producing less volatile returns, investing in small ticket lending opportunities with attractive risk and reward characteristics.

The Company specialises in investing in small size private credit assets across SME, consumer (secured and unsecured), real estate and trade finance asset classes through strategic partnerships which encompass marketplace lending platforms, balance sheet lenders and other non-bank loan originators. The Company invests in the USA, Europe and Australasia and actively seeks opportunities in other markets.

Investment Objective

The Company's investment objective is to provide its shareholders with an attractive level of reliable dividend income through exposure to investments in alternative finance and related instruments. The Company targets a dividend of 6-8% annually over the long term. In addition, the Company may also make equity investments.

⁴ The July 2015 C Share was 9.5p

I Glossary

NAV (Cum Income) - The value of investments and cash, including current year revenue, less liabilities.

NAV (Ex Income) - The value of investments and cash, excluding current year revenue, less liabilities.

Share price - Closing mid-market share price at month end (excluding dividends reinvested).

Discount/premium - The amount by which the price per share of an investment trust is either lower (at a discount) or higher (at a premium) than the net asset value per share (cum income), expressed as a percentage of the net asset value per share.

Market capitalisation - Month end closing mid-market share price multiplied by the number of shares outstanding at month end.

Total NAV Return - The theoretical total return on shareholders' funds per share reflecting the change in Net Asset Value (NAV) assuming that dividends paid to shareholders were reinvested at NAV at the time dividend was announced.

Gearing Ratio - The aggregate leverage of the Company, whether incurred directly or indirectly through a subsidiary or an SPV established by the Company (in each case calculated at the time of drawdown under any facility the Company, subsidiary or SPV has entered into), and any investment fund which is managed by the Investment

Manager, the Sub-Manager or their affiliates and in which the Company invests (on a look-through basis, proportionate to the percentage interest the Company retains in the most junior tranche of such investment fund) shall not exceed 1.5 times Net Asset Value.

Net Debt to Equity – The total debt issued directly by the Company and on a pro-rata basis to the Company's investment, the debt issued by entities owned by the Company or by entities managed by the Investment Manager, net of total cash held by the Company, divided by the Company's Net Asset Value.

Total Net Debt to Equity – The total debt of the Company, whether incurred directly or indirectly through a subsidiary or an SPV established by the Company, and any investment fund which is managed by the Investment Manager, the Sub-Manager or their affiliates and in which the Company invests (on a look-through basis, proportionate to the percentage interest the Company retains in the most junior tranche of such investment fund), net of total cash held by the Company, divided by the Company's Net Asset Value.
